PROFILE

Computer Engineering student with a strong foundation in C++, OOP, and Data Structures & Algorithms. Experienced in developing full-stack web and mobile applications, working with REST APIs, authentication, and SQL and NoSQL databases. Strong problem-solving and debugging skills, with an interest in building reliable, efficient, and high-quality software.

EDUCATION

K. K. Wagh Institute of Engineering Education & Research — **Nashik**
B.Tech in Computer Engineering - CGPA: 8.38 — *Expected 2027*

D.D. Bytco Boys High School and Jr. College — **Nashik**
HSC (Science) - 80.33% — MHT-CET - 95.36%

EXPERIENCE

Infyntrek Systems — April 2026 - June 2026
Full Stack Intern — MERN Stack, REST APIs, JWT

- Worked on the development team of a FinTech platform (FinanceFlow), building features across the frontend and backend.
- Owned the development of the Budget Management module, from API design to UI integration.
- Designed and implemented JWT-based authentication for secure user registration and login.
- Collaborated with the team using Git/GitHub for version control, code reviews, and feature integration.

Runverve (Google for Startups-backed, IIT Madras Incubated) — Jan 2026 – Present
React Native Developer

- **Tech Stack:** React Native, Firebase, REST APIs, Google Cloud Platform (GCP), Vertex AI
- Developing a cross-platform wellness application using modular architecture and reusable UI components.
- Integrating Vertex AI, MedLM (formerly Med-PaLM), and Gemini agents through Google Cloud Platform.
- Implementing Firebase Authentication, Firestore, and REST API integrations for backend communication.

PROJECTS

Coffee Barista | *Python, FastAPI, Google ADK, Firestore, Firebase Auth, Cloud Run* | GitHub | Live — July 2026 - Sep 2026

- Built a RAG-based coffee recommendation system using Vertex AI embeddings and Firestore vector search for context-aware recommendations.
- Developed a multi-agent workflow with domain guardrails, preference extraction, and deterministic filtering for budget, dietary needs, and calories.
- Integrated Firebase Authentication and persistent guest sessions; deployed the FastAPI backend and Streamlit frontend on Google Cloud Run.

FinanceFlow | *React, TailwindCSS, Express, MongoDB, REST API* | GitHub | Live — April 2026 - June 2026

- Built a Personal Finance Management (PFM) Dashboard to consolidate financial data from multiple bank accounts, credit cards, and investment platforms into a unified interface.
- Implemented secure account aggregation, transaction categorization, budget management, and net worth visualization features.
- Designed responsive UI and optimized backend APIs for efficient financial data retrieval and visualization.

Restaurant Management System | *Next.js, JavaScript, TailwindCSS, MongoDB* | GitHub | Live — Oct 2025 - Feb 2026

- Developed a full-stack Restaurant Management Web Application to streamline order processing, automate inventory tracking, and improve overall operational efficiency.
- Designed and implemented a responsive, SEO-optimized user interface using Next.js, enhancing search engine visibility and user engagement.
- Optimized application performance with Next.js features such as Server-Side Rendering (SSR) and efficient routing, reducing page load times and delivering a low-latency user experience.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, SQL
Frameworks & Technologies: React.js, Node.js, Express.js, Next.js, React Native, REST APIs
Databases: PostgreSQL, MySQL, MongoDB
Developer Tools: Postman, Git/GitHub, Source Code Management, Debugging
Cloud & Platforms: Google Cloud Platform, AWS, Vercel, Render

CERTIFICATIONS

NPTEL: Programming in Java, Programming in Modern C++
AWS: Cloud Foundations
ORACLE: Agentic AI Foundations Associate
UDEMY: React.js Fundamentals

ACHIEVEMENTS

- Solved **300+ LeetCode** problems, strengthening problem-solving abilities and core Data Structures & Algorithms concepts.
- Achieved the title of **State-Level Karate Champion.**
- Secured **2nd Rank** in HSC at D.D. Bytco Boys High School & Jr. College.
- Secured **3rd Rank** in the **Data Science & Big Data Competition** at KKWIEER.

EXTRACURRICULAR ACTIVITIES

- Participated in multiple national-level hackathons, enhancing technical skills, teamwork, and problem-solving abilities.
